

✚ Creative Writing Collaborative: Users contributes to ongoing collaborative storytelling projects.

**Steps: The following step to upload a Repository to Github via Gitbase.**

Step 1: Install Git.

Step 2: Configure Git (only needed once)

Base code or Git terminal: we can follow any one

- I create the repository by git bash:
- Git config - global user.name "Rajil-2302031000044"
- Git config-global user. email

[2302031000044@silveroakuni.ac.in](mailto:2302031000044@silveroakuni.ac.in)

Step 3: Create a repository on Github :

- First I log in to Github.
- Click on "New Repository" and give it a name.
- Keep it public or private , here I keep public.

Step 4: Go to project folder:

Open the terminal and navigate to the folder containing your files:

Base code = cd..

Cd 2302031000044

Step 5: Initialize Git: (Create a new local repository )

Base code = git init 2302031000044 Step

6: Create the assignment folders:

Base code = mkdir Assignment\_1

mkdir Assignment\_2 Step 7: Add the  
folder to Git:

Base code= git add Assignment\_1 and Assignment\_2

Step 8: Commit the changes:

Bash code = git commit -m "Added Assignment\_1 and  
Assignment\_2 folders".

Step 9: Push the Changes to Github:

Bash code = git push -u origin master
